Castalia-CREF Renewable Energy Islands Index

CREF 2012
15-17 October

Castalia-CREF Renewable Energy Islands Index

➤ The Purpose

- **Track real progress and prospects in renewable energy investments in the Caribbean**
- **Help project developers and financiers see where the action is**
- **Help governments attract renewable energy investments**

➤ The Index

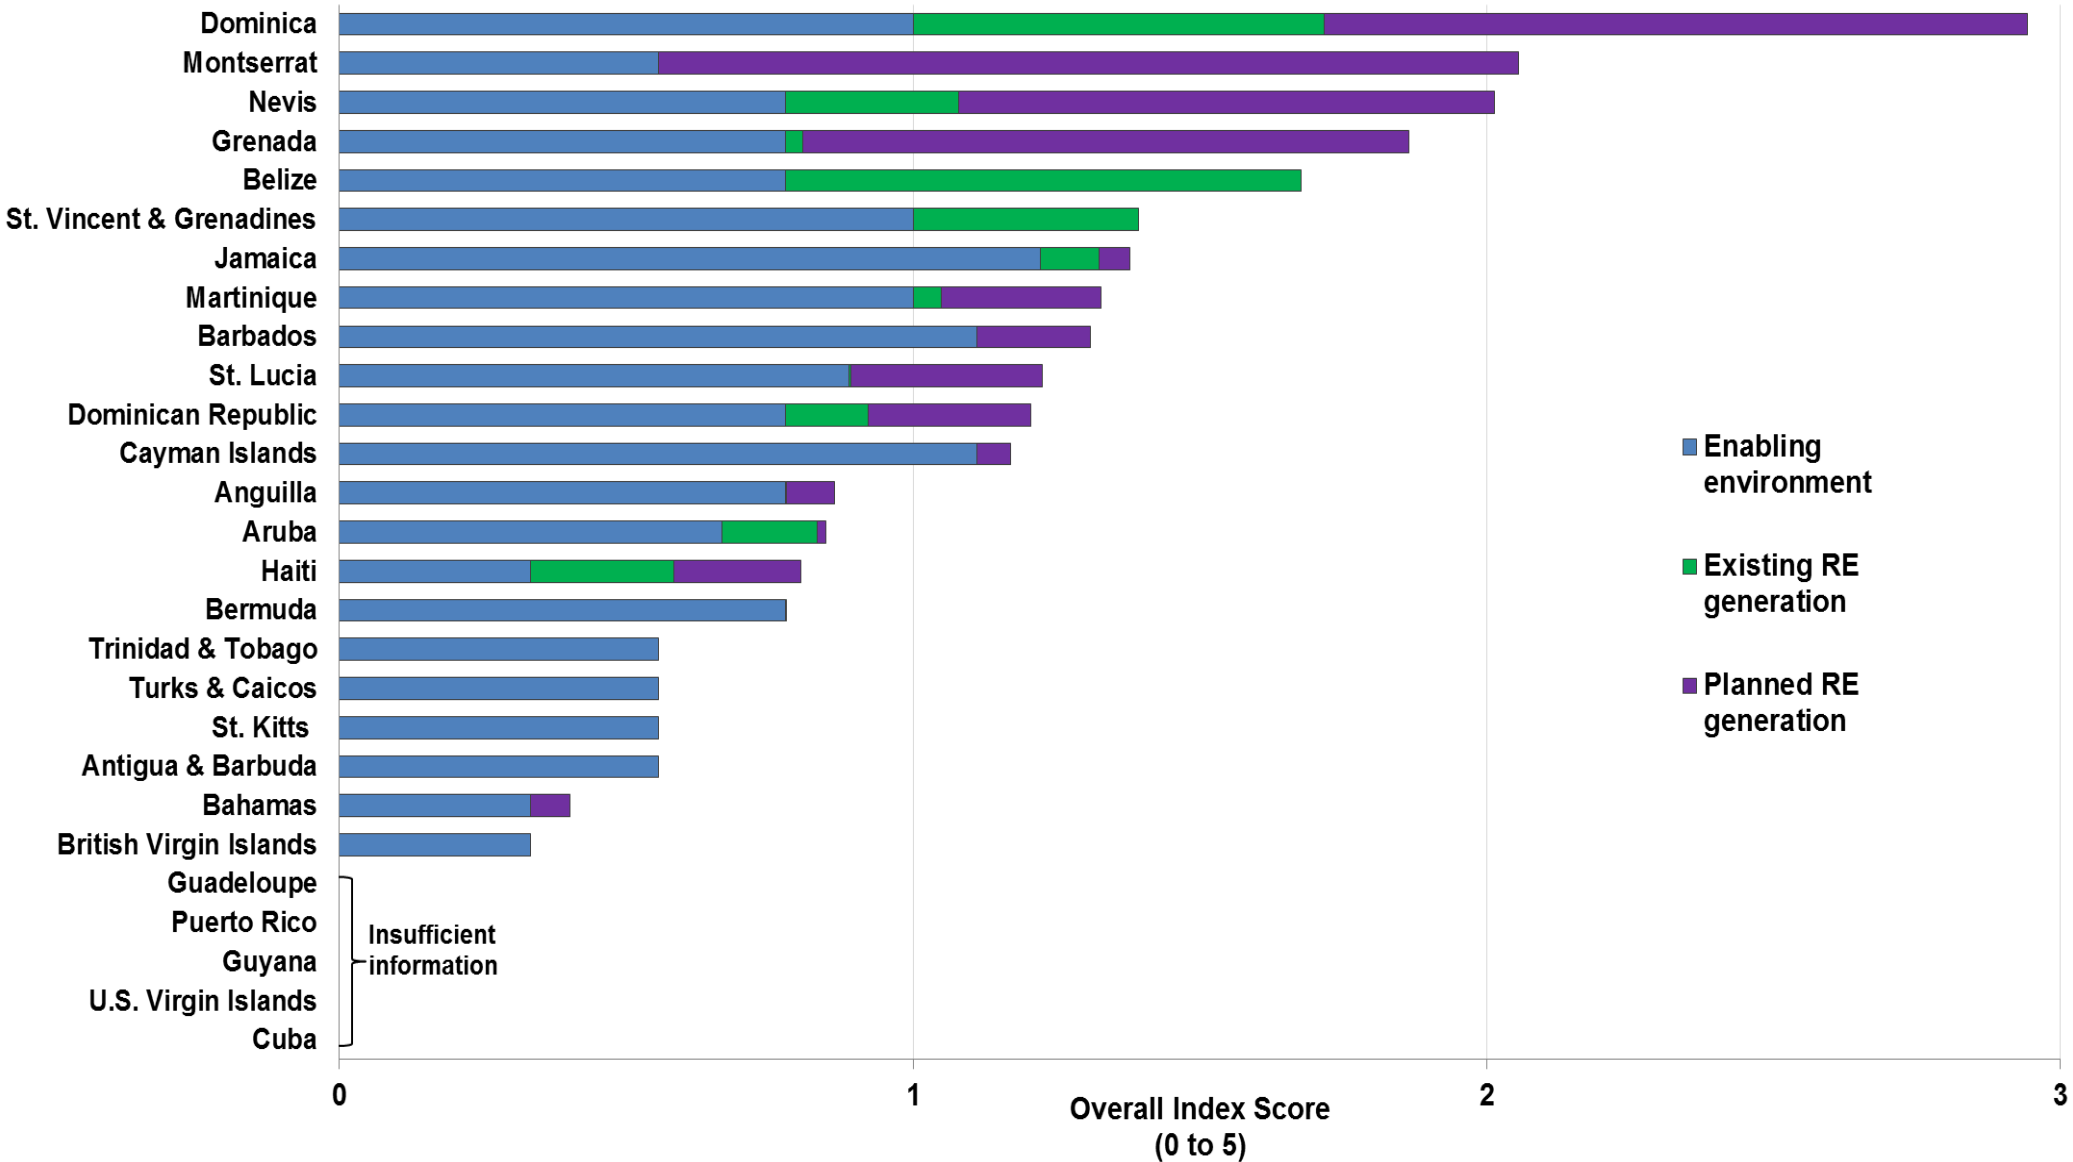

- **Measures readiness to develop and implement renewable energy projects**
- **The Overall Score is derived from scores on:**
 1. **Enabling environment for renewable energy investments**
 2. **Renewable energy projects already implemented**
 3. **Pipeline of potential renewable energy projects**

➤ What next?

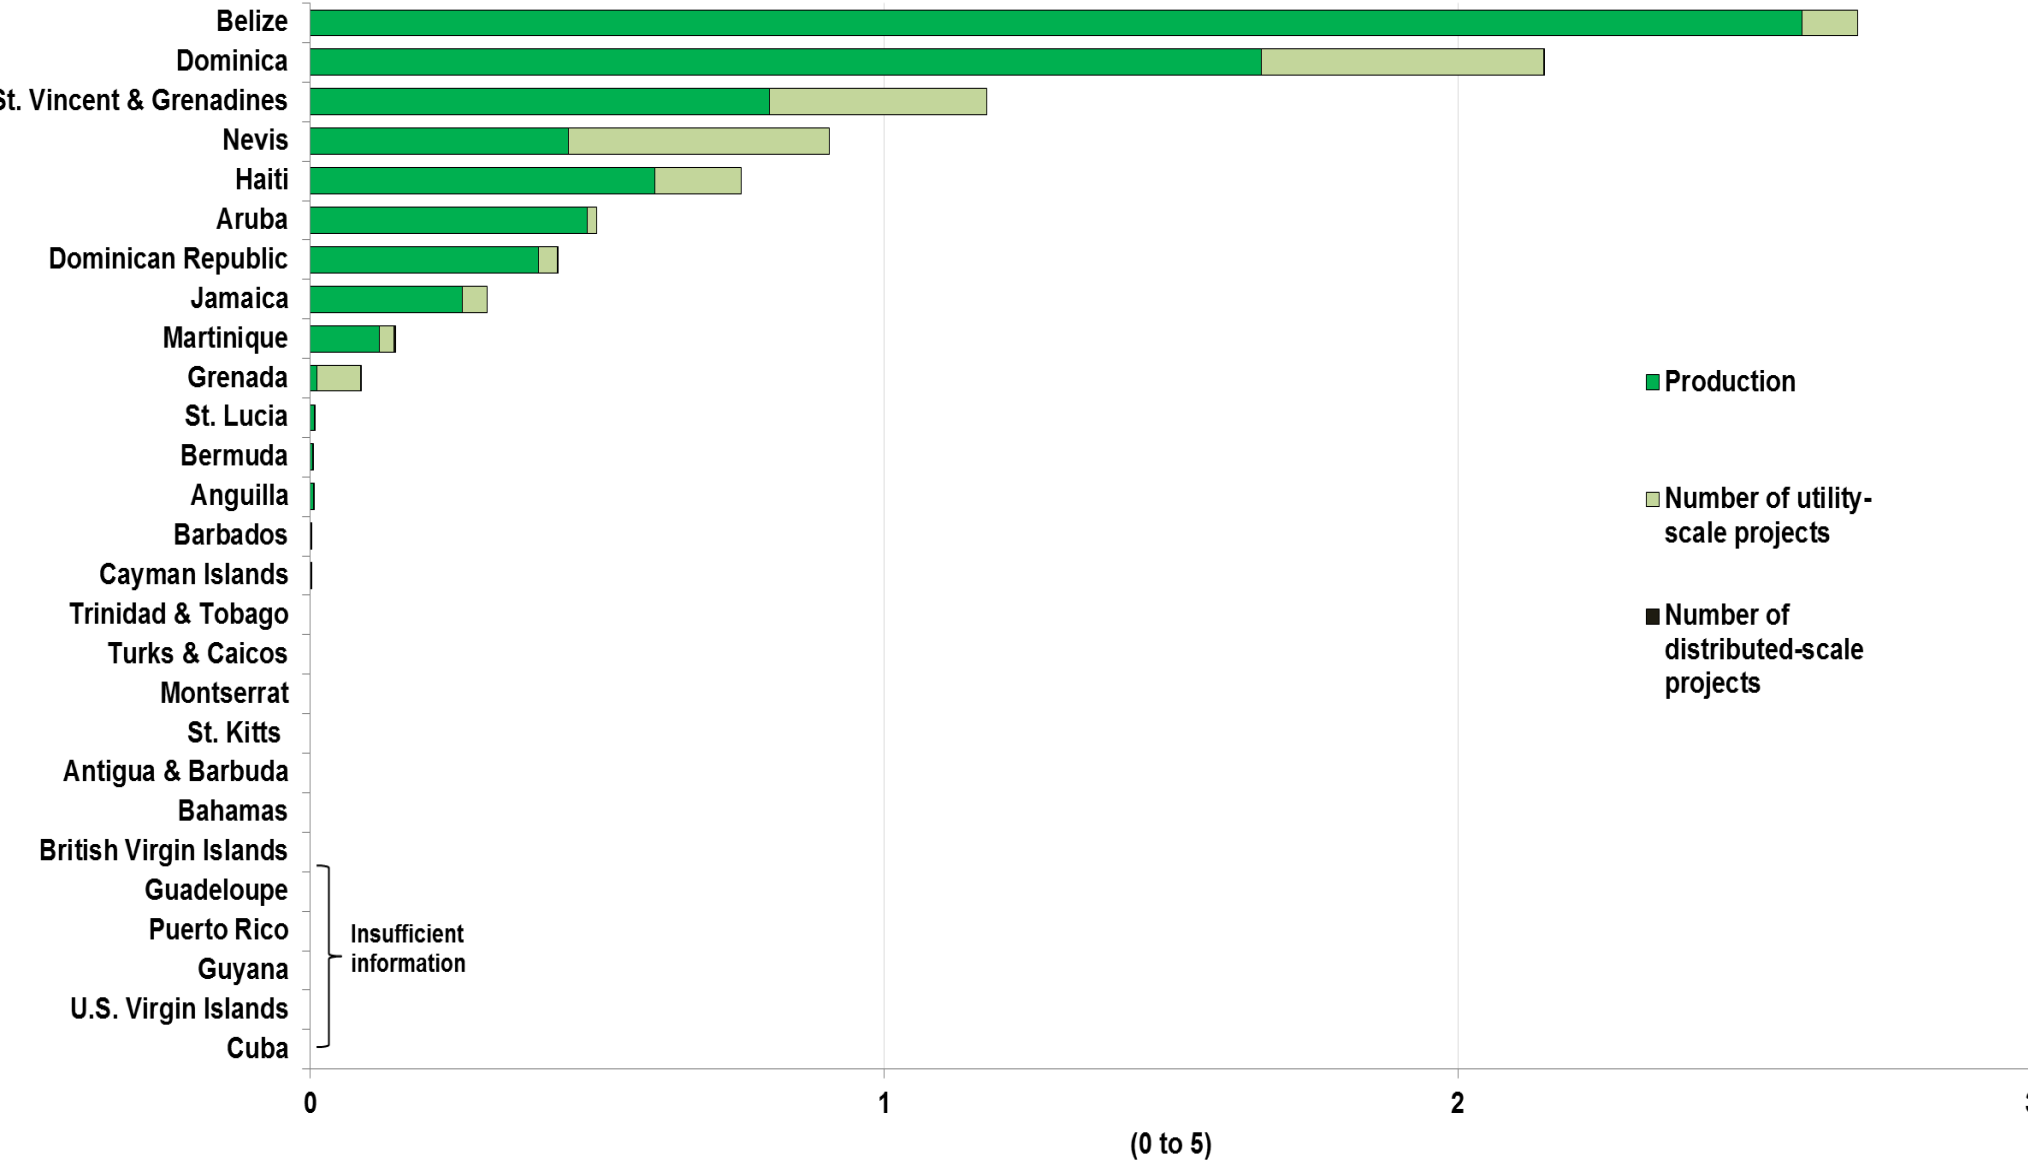

- **If governments and developers find the Index useful, we will continue to produce it in years to come**
- **Please help us to make it accurate by sharing your information**

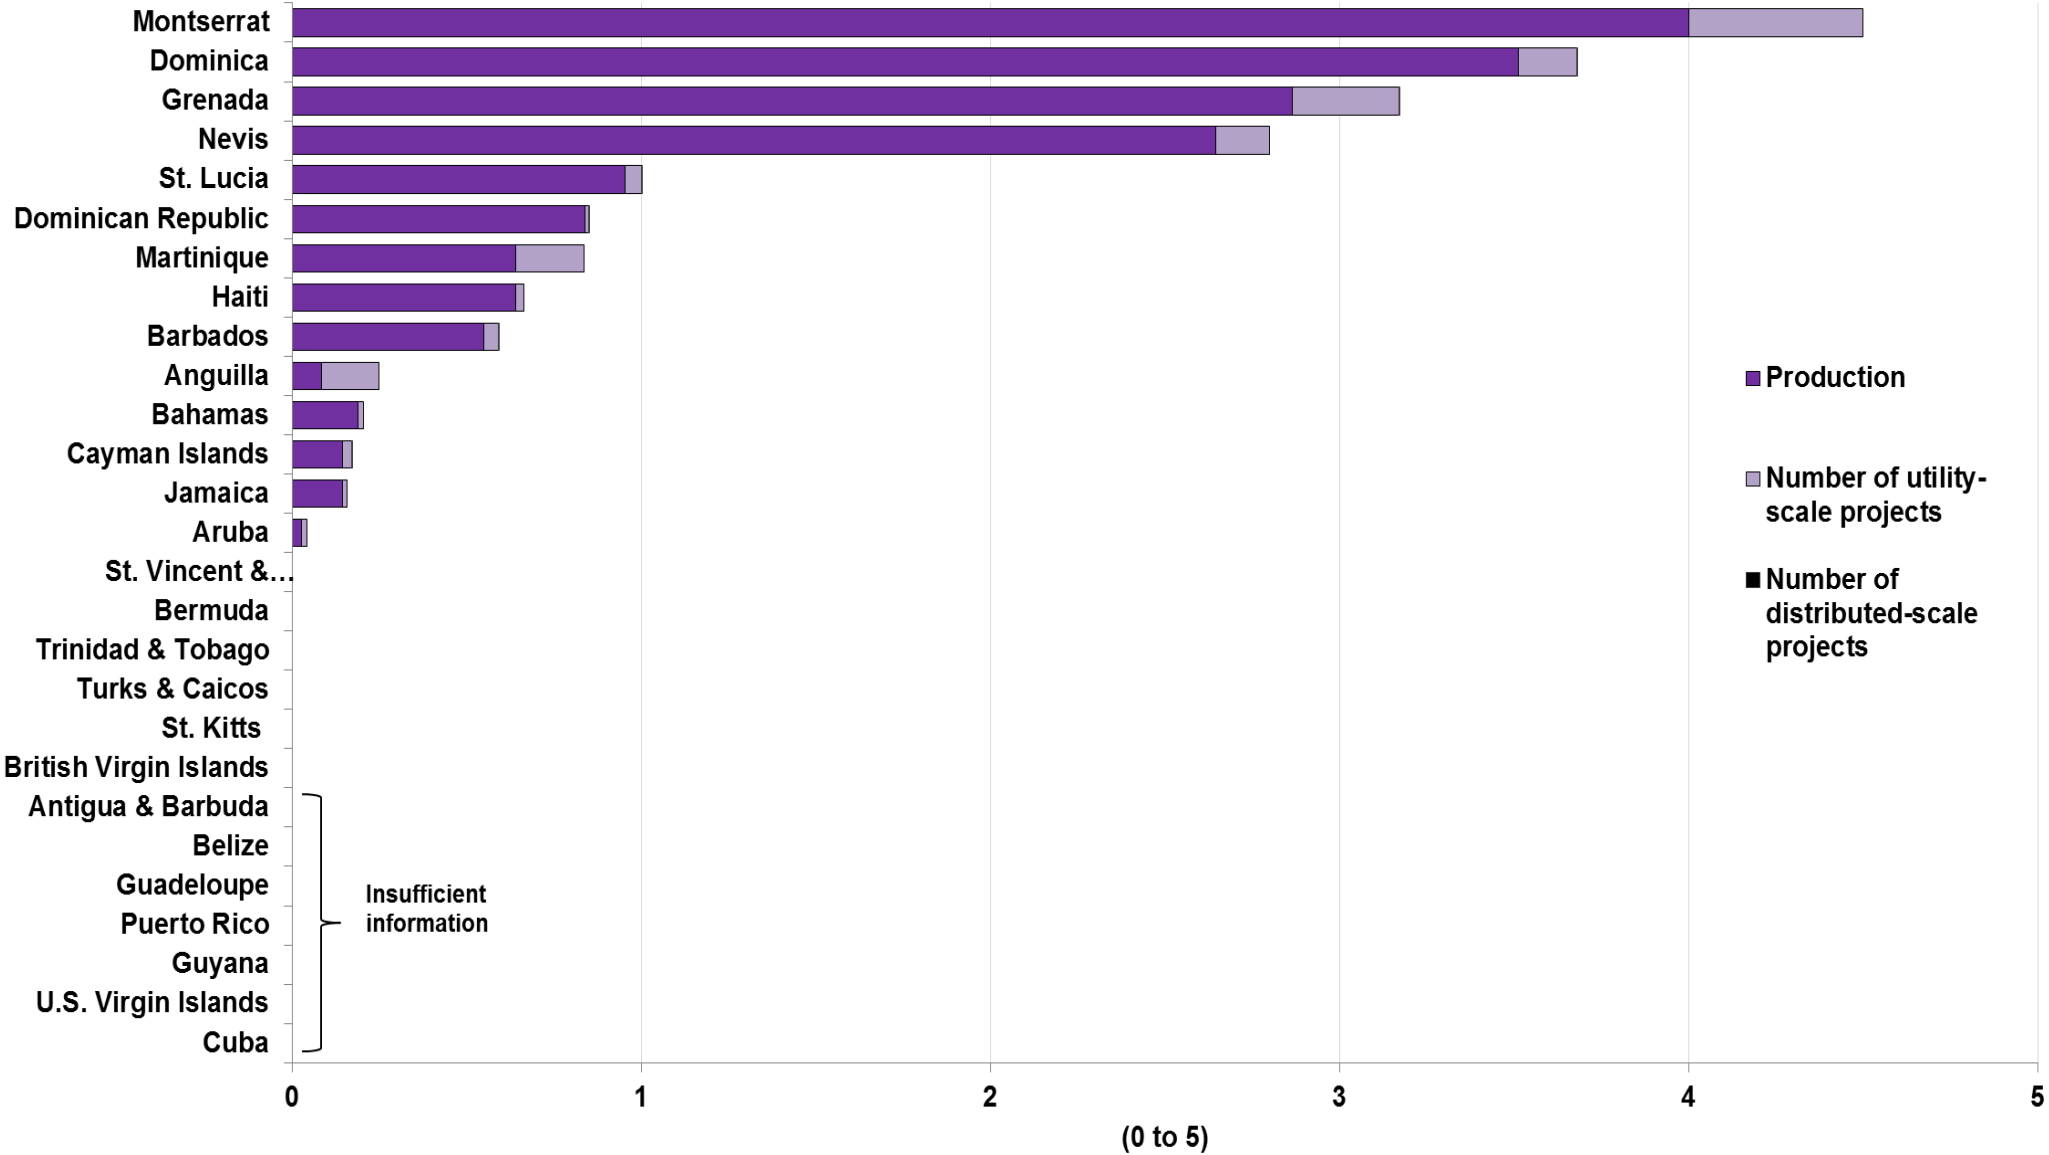

2012 Ranking

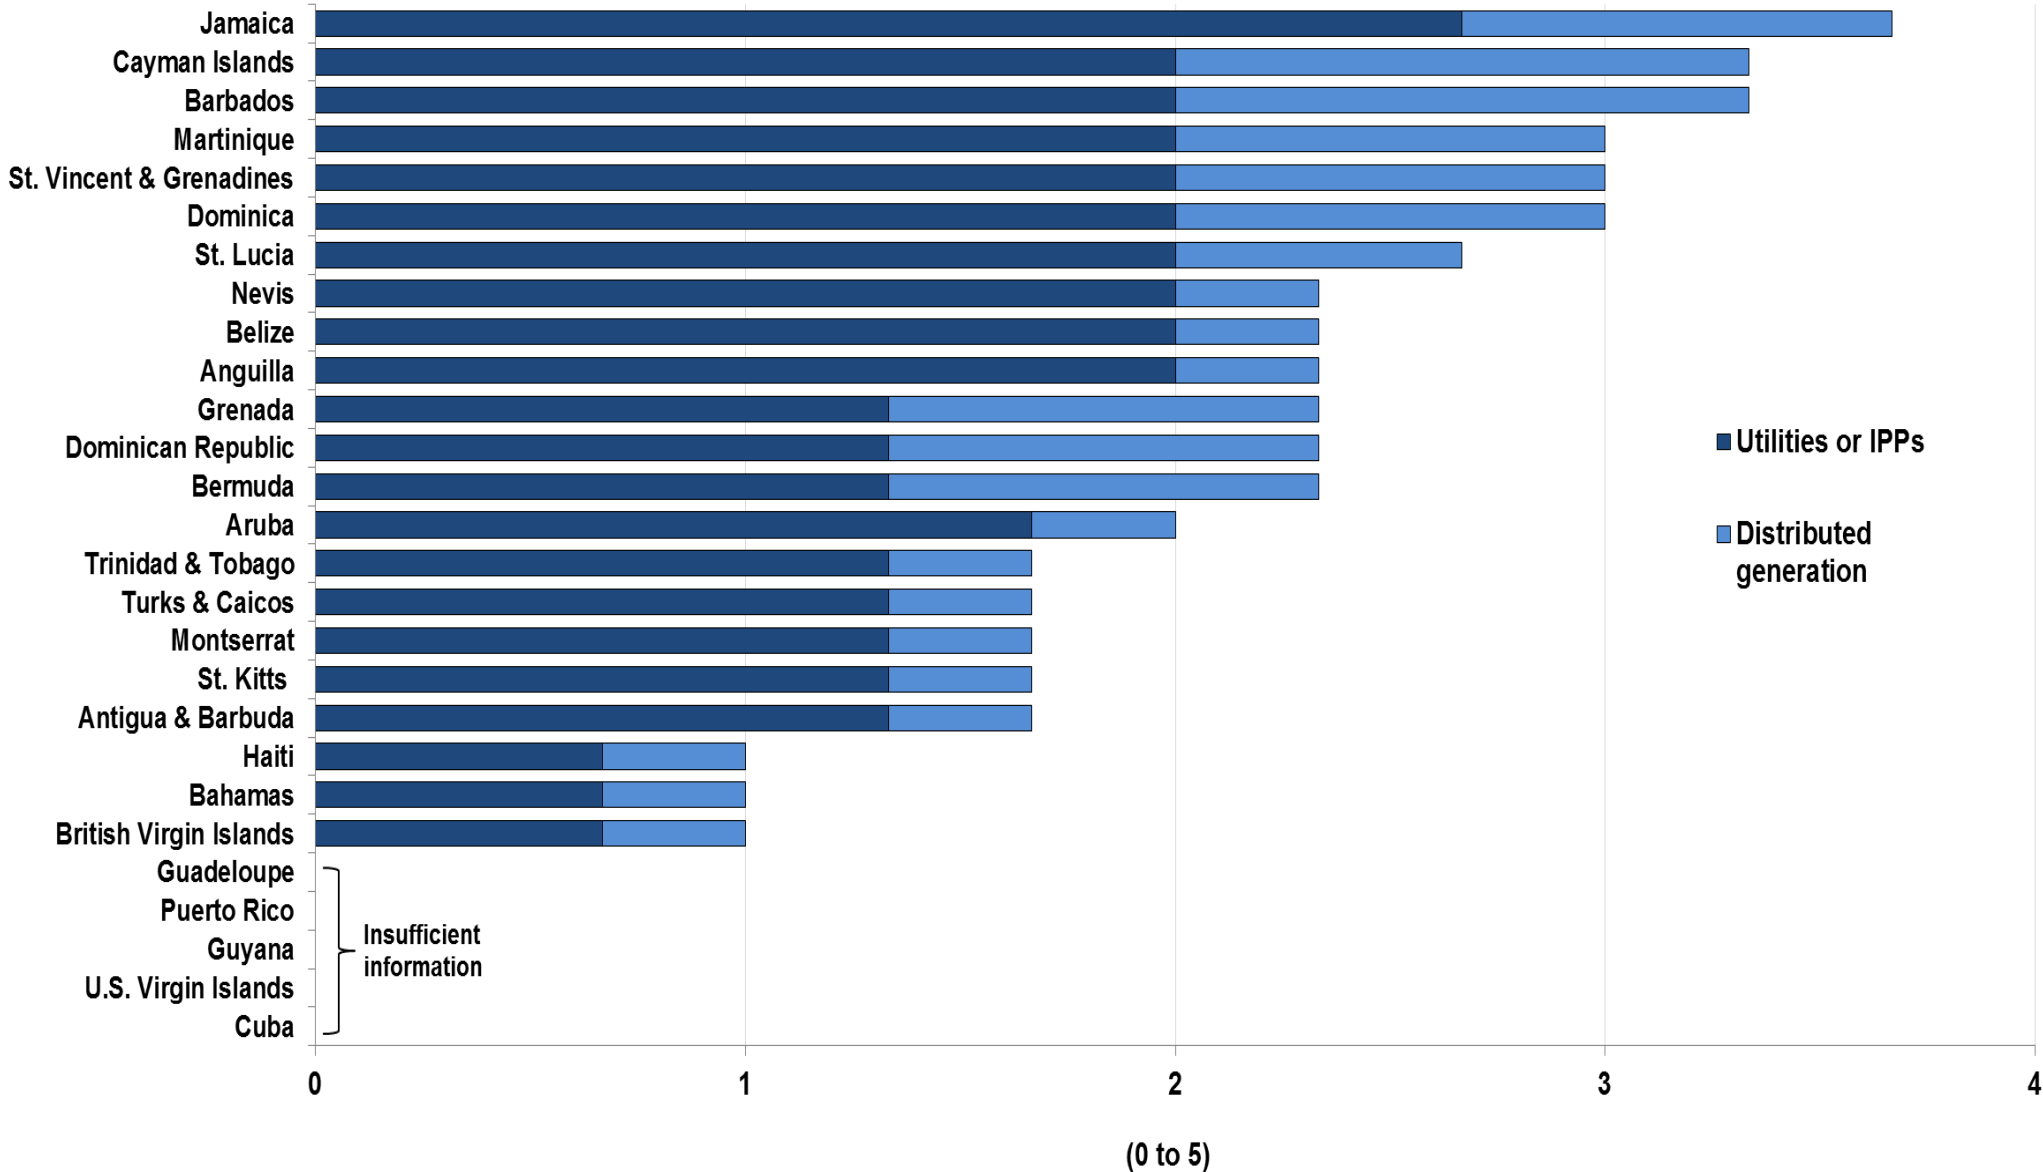

Existing Renewable Generation

Planned Renewable Generation

Enabling Environment for Renewable Energy Investments
